foam changes

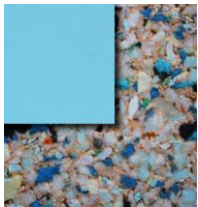

STANDARD SPECIFICATION

Acoustic Foam Lining- convoluted foam (egg crate pattern) in charcoal grey, designed to control the acoustics. Similar characteristics of recording studios, auditoriums, home cinemas etc.

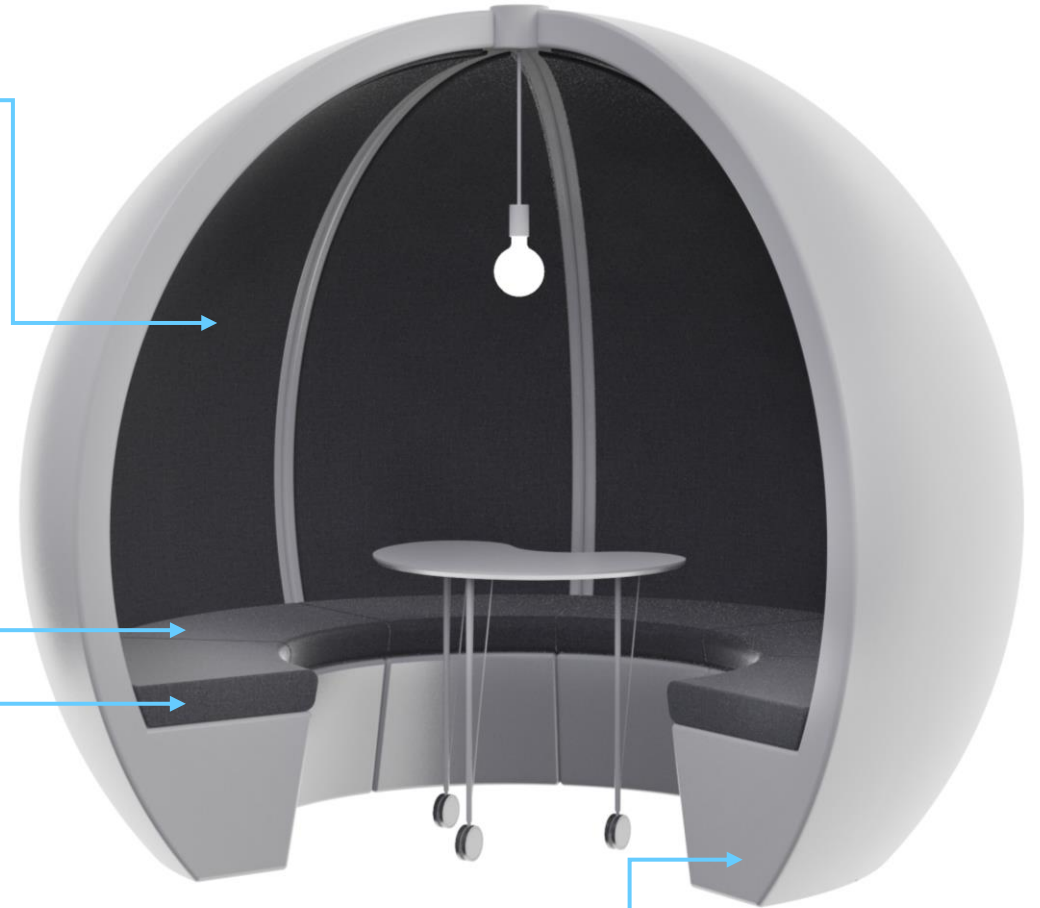

Seat Material-wipe clean grey vinyl.

Seat Foam- 3", 6lb reconstituted foam with 1" blue topper. All foam materials comply BS 5852 flammability performance requirements and cigarette/ match ignite test.

Shells- Constructed from white recycled resin, typically 1800 bottle tops makes up a 4 person pod. Our choice for white stems from its resistance to discolouring.

Additional Information

Warranty

A 5 year warranty is supplied on the structure of our products covering normal use for the purposes of meetings. In addition, the benefit of any manufacturer's warranty given by a third party supplier of goods will be assigned to the buyer. No liability will be accepted for any defect arising from fair wear and tear, wilful damage, negligence, misuse, alterations or repairs without the seller's approval in writing.

Acoustics

Designed and manufactured by us with acoustics at the forefront of consideration. We have integrated premium materials to maximise our pods acoustic properties, with independent laboratory testing to BS ISO 23351-1:2020 standards to ensure the highest levels of performance.

Installation

For all UK orders, our own engineering team will deliver and install your products.

- Requirements for installations are;
- Local parking
 - Access information to installation site
 - Completion of pre-installation questionnaire
 - Confirmation if site induction required

Worldwide Delivery

Our products can be shipped worldwide.

We do not install outside of the UK. Self assembly will be required; however, we will provide a fully comprehensive installation guide along with helpful 'how to' videos to assist with the build of each product.
